Cross-sectional Height:
Between 0.100 inches and 0.106 inches
Center Hole Diameter:
Between 1.591 inches and 1.633 inches
End Application:
Pacer dawn
Special Features:
Operate and seal at -40 degrees f to 400 degrees f in contact with synthetic lubricants such as mil-l-7808 and mil-l-23699
Material:
Plastic fluorocarbon
Shelf Life:
N/a
Unit Of Measure:
<del></del>
Demilitarization:
No
Fiig:
A510x0
