**Cross-sectional Height:**

Between 0.100 inches and 0.106 inches

**Center Hole Diameter:**

Between 1.778 inches and 1.820 inches

**End Application:**

Pacer dawn

**Special Features:**

Operate and seal at -40 degrees f to 400 degrees f in contact with synthetic lubricants such as mil-l-7808 and mil-l-23699

**Material:**

Rubber fluorocarbon class fpm

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A510x0
