Cross-sectional Height:

Between 0.100 inches and 0.106 inches

Center Hole Diameter:

Between 1.778 inches and 1.820 inches

End Application:

Pacer dawn

Special Features:

Operate and seal at -40 degrees f to 400 degrees f in contact with synthetic lubricants such as mil-l-7808 and mil-l-23699

Material:

Rubber fluorocarbon class fpm

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A510x0
