Hardness Rating: 75.0 shore durometer a Criticality Code Justification: Zzzy Material: Rubber fluorocarbon class fpm Material Specification: Mil-r-83248, type 1 cl 1 military specification single material response Special Test Features: Special quality control testing Test Data Document: 81349-mil-p-23199 specification (includes engineering type bulletins, brochures, etc., that reflect specification type data in specificati format; excludes commercial catalogs, industry directories, and similar trade publications, reflecting general type data on certain environmental and performance requirements and test conditions that are shown as "typical", "average", "", etc.). Reference Number Differentiating Characteristics: As differentiated by material which must conform to ships parts control center special quality control provisions and certified free from mercury contamination Shelf Life: N/a Unit Of Measure: Demilitarization: No Fitig: A510x0
