Cross-sectional	Height:	

Between 0.067 inches and 0.073 inches

Center Hole Diameter:

Between 0.421 inches and 0.431 inches

End Application:

Manifold assembly 1a (oxygen) ogp; w/s: oxygen generation plant; seawolf class ssn; submarine atmosphere control and compressed air/gas

Criticality Code Justification:

Feat

Special Features:

Cleaned iaw mil-std-1330

Material:

Rubber synthetic

Shelf Life:

N/a

Unit Of Measure:

Demilitarization:

No

Fiig:

A510x0

Mil-std (military Standard):

Mil-std-1330 spec.
