Tempurature Rating:
-65.0 degrees fahrenheit and 275.0 degrees fahrenheit
Cross-sectional Height:
0.125 inches
Center Hole Diameter:
Between 1.359 inches and 1.375 inches
Special Features:
Petroleum and hydraulic fluid resistant; designed for use w/internal straight thd fluid connection bases and tube fittings
Material:
Rubber butadiene-acrylonitrile class nbr
Material Specification:
Mil-p-83461 military specification all material responses
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No

Fiig: A510x0

Mil-std (military Standard):

Mil-p-83461 spec.
