Cross-sectional Height:

0.125 inches

Center Hole Diameter:

2.000 inches

End Application:

Tarawa class lha

Special Features:

Goes to a 3-way water control valve, seawater service electric actuator

Material:

Rubber butadiene-acrylonitrile class nbr

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A510x0
