Cross-sectional Height:

Between 0.100 inches and 0.106 inches

Center Hole Diameter:

Between 3.100 inches and 3.130 inches

End Application:

Ticonderoga class cg

Special Features:

O-ring requirements are per ge specification a50tf156 class a used with the lm2500 agb starter drive carbon seal

Material:

Rubber fluorocarbon class fpm

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A510x0
