Cross-sectional Height:

Between 0.135 inches and 0.143 inches

Center Hole Diameter:

Between 6.444 inches and 7.524 inches

End Application:

Navicp consolidated ground support equipment

Hardness Rating:

70.0 shore durometer a

Special Features:

Highly saturated nitril (hnbr)

Material:

Rubber butadiene-acrylonitrile class nbr

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A510x0
