Cross-sectional Height:

Between 0.100 inches and 0.106 inches

Center Hole Diameter:

Between 1.597 inches and 1.627 inches

End Application:

Filter, tee type air 3/8 in

Material:

Plastic polytetrafluoroethylene

Material Specification:

Ams3651 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A510x0
