Cross-sectional Height:

Between 0.067 inches and 0.073 inches

Center Hole Diameter:

Between 69.100 inches and 70.100 inches

End Application:

501d, all, t56, except 427, t56-a only series iv, ae2100a, c, and ae2100d2, d3, j engines

Product Name:

Packin, preformed o ring

Special Features:

Weight per 100 0.214 lbs

Material:

Rubber fluorocarbon class fpm

Material Specification:

Ams 7176 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A510x0
