Tempurature	Rating:
-85.0 degrees	fahrenheit

-85.0 degrees fahrenheit and 401.0 degrees fahrenheit

**Cross-sectional Height:** 

Between 0.100 inches and 0.106 inches

**Center Hole Diameter:** 

Between 3.959 inches and 4.015 inches

**End Application:** 

Aircraft, stratolifter c-135

**Hardness Rating:** 

40.0 shore durometer a

**Special Features:** 

Ptfe coated

Material:

Rubber silicone class q

**Material Specification:** 

Sae ams3301 assn standard single material response

Shelf Life:

N/a

**Unit Of Measure:** 

--

Demilitarization:

No

Fiig:

A510x0
