Cross-sectional Height:

0.275 inches

Center Hole Diameter:

32.800 inches

End Application:

Main shaft stern tube closure device & snubber assembly

Material:

Rubber butadiene-acrylonitrile class nbr

Material Specification:

Mil-g-21510 ty-i military specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A510x0

Mil-std (military Standard):

Mil-g-21510 spec.
