Cross-sectional Height:

Between 0.067 inches and 0.073 inches

Center Hole Diameter:

Between 0.359 inches and 0.369 inches

End Application:

Personal oxygen system for high altitude parachutists

Product Name:

O-ring

Special Features:

Ethylene propylene construction; 70 shore hardness rating

Material:

Rubber ethylene-propylene class epm

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A510x0
