Cross-sectional Height:

Between 0.067 inches and 0.073 inches

Center Hole Diameter:

Between 0.917 inches and 0.935 inches

End Application:

Relief valve type 1551-t top guided 5-1500 psig

Special Features:

As568-021 polytetrafluoroethylene

Material:

Plastic polytetrafluoroethylene

Material Specification:

Ams 3660 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A510x0
