Cross-sectional Height:
Between 0.067 inches and 0.073 inches
Center Hole Diameter:
Between 0.917 inches and 0.935 inches
End Application:
Relief valve type 1551-t top guided 5-1500 psig
Special Features:
As568-021 polytetrafluoroethylene
Material:
Plastic polytetrafluoroethylene
Material Specification:
Ams 3660 assn standard single material response
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
