**Cross-sectional Height:**

0.188 inches

**Center Hole Diameter:**

2.500 inches

**End Application:**

Valve assembly

**Special Features:**

Od is 2.780 in (nom)

**Material:**

Rubber fluorocarbon class fpm

**Material Specification:**

Sae-ams7276g assn standard single material response and sae-ams7259d assn standard single material response and sae-as3216a assn standard single material response and sae-as3218a assn standard single material response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A510x0
