Cross-sectional Height:

0.188 inches

Center Hole Diameter:

2.500 inches

End Application:

Valve assembly

Special Features:

Od is 2.780 in (nom)

Material:

Rubber fluorocarbon class fpm

Material Specification:

Sae-ams7276g assn standard single material response and sae-ams7259d assn standard single material response and sae-as3216a assn standard single material response and sae-as3218a assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A510x0
