Cross-sectional Height:
0.188 inches
Center Hole Diameter:
4.333 inches
End Application:
Valve assembly
Special Features:
Od is 4.500 in
Material:
Rubber fluorocarbon class fpm
Material Specification:
Sae-ams 7276g assn standard single material response and sae-ams 7259d assn standard single material response and sae-as 3216a assn
standard single material response and sae-as3218a assn standard single material response
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A510x0
