**Cross-sectional Height:**

0.125 inches

**Center Hole Diameter:**

1.125 inches

**End Application:**

Hardware

**Hardness Rating:**

70.0 shore durometer a

**Special Features:**

Temperature range is -60 to +300 degrees f; outside diameter is 1.375; lubricated with glycerin

**Material:**

Rubber ethylene-propylene class epm

**Material Specification:**

Mil-std-2041 military standard single material response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A510x0

**Mil-std (military Standard):**

Mil-std-2041 spec.
