Cross-sectional Height:

Between 0.100 inches and 0.106 inches

Center Hole Diameter:

0.419 mils and 0.429 centimeters

End Application:

2320-01-531-5250

Product Name:

Ring, o

Special Features:

Material is fluoroelastomer; minimal tfe coating thickness can not be readily scraped off with finger nail; dry film lubricant, ems 800-5002, type vii

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A510x0
