Cross-sectional Height:

0.103 inches

Center Hole Diameter:

0.612 inches

End Application:

Hatch dog set handles, apu engine compartment

Special Features:

Polytetrafluoroethylene coated o-ring, reference data literature: (64747) door assembly parts list 990-2506000, pg 2 of 6, find no.42

Material:

Rubber butadiene-acrylonitrile class nbr

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A510x0
