Cross-sectional Height:

Between 0.100 inches and 0.106 inches

Center Hole Diameter:

Between 0.542 inches and 0.556 inches

End Application:

Aircraft engine: turbo-jet j85can40 used on tutor jet aircraft ct114

Product Name:

O-ring

Special Features:

nom diameter 0.658"; material lord compund ne-8273 or aflas per ams7255; o-ring has small flange .005"max wide and .003" high on outer and inner sides, .003" included twice for nom diameter

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A510x0
