Cross-sectional Height:
Between 0.067 inches and 0.073 inches
Center Hole Diameter:
Between 0.292 inches and 0.306 inches
End Application:
Injection pump
Hardness Rating:
70.0 shore durometer a
Material:
Plastic polyurethane
Material Specification:
Parker o-ring div (cagec 02697) compound +0642 mfr ref single material response
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A510x0
