Cross-sectional Height:

Between 0.067 inches and 0.073 inches

Center Hole Diameter:

Between 0.292 inches and 0.306 inches

End Application:

Injection pump

Hardness Rating:

70.0 shore durometer a

Material:

Plastic polyurethane

Material Specification:

Parker o-ring div (cagec 02697) compound +0642 mfr ref single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A510x0
