Cross-sectional Height:

Between 0.076 inches and 0.082 inches

Center Hole Diameter:

Between 0.604 inches and 0.624 inches

End Application:

5999-01-569-9396

Product Name:

O-ring, pumphead

Special Features:

Phosphate ester hydraulic fluid resistant

Color:

Black

Material:

Rubber butyl

Material Specification:

Hms 2312, type i, form i assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A510x0
