Tempurature Rating:

-65.0 degrees fahrenheit

Cross-sectional Height:

0.094 inches

Center Hole Diameter:

6.500 inches

End Application:

A-mgs-stryker

Hardness Rating:

70.0 shore durometer a

Special Features:

Temperature range m65 degrees f tp 212 degrees f; od-6.693 in

Color:

Black

Material:

Plastic fluorinated ethylene propylene

Material Specification:

Astm d2000/sae j200 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A510x0
