Tempurature Rating:

275.0 degrees fahrenheit

Cross-sectional Height:

Between 0.069 inches and 0.075 inches

Center Hole Diameter:

Between 0.409 inches and 0.419 inches

End Application:

U-2

Special Features:

Petroleum hydraulic resistant fluid resistant

Material:

Rubber butadiene-acrylonitrile class nbr

Specification Data:

81349-as83461/2 government specification

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A510x0
