Cross-sectional Height:

Between 0.067 inches and 0.073 inches

Center Hole Diameter:

Between 0.855 inches and 0.873 inches

End Application:

Valve, constant flow .75in bronze

Product Name:

O-ring, orifice (2-020)

Special Features:

Material is type 1, class 1

Material:

Rubber fluorocarbon class fpm

Material Specification:

Sae ams 3216g assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A510x0
