**Cross-sectional Height:**

0.125 inches

**Center Hole Diameter:**

1.437 inches

**Criticality Code Justification:**

Zzzw

**Product Name:**

(inav)rubber flourocarbon elastomer, high temperature, fluid and compression set resistant (o-ring, class 2, 90 hardness)

**Special Features:**

Outside diameter is 1.688 inches

**Material:**

Rubber fluorocarbon class fpm

**Departure From Cited Document:**

Material will be in accordance with navicp activity hx quality control, manufacturing and testing specifications

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A510x0
