Cross-sectional Height:

Between 0.100 inches and 0.106 inches

Center Hole Diameter:

Between 6.447 inches and 6.527 inches

End Application:

Used on the cvn 21 make-up water unit activated carbon filter sectional assembly

Product Name:

O-ring 2-474

Special Features:

Material is viton ; size per sae as568

Material:

Rubber synthetic

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A510x0
