**Special Features:**

Us nsn needs to be assigned as we are unable to obtain cage code and part number for the oem, the only information we can obtain is that the company is in germany and siemens buys the item by description. Per acodp-1 paragraph131.1.2 items of supply originating from non-manufacturers. The country where a known supplier trades is responsible for the codification of the item of supply when the design control authority cannot be verified.
