| Fabrication Method:                  |  |  |
|--------------------------------------|--|--|
| Woven                                |  |  |
| Width:                               |  |  |
| 36.000 inches                        |  |  |
| Length:                              |  |  |
| 100.000 feet                         |  |  |
| Edge Type:                           |  |  |
| Selvaged edge                        |  |  |
| Surface Treatment Application Stage: |  |  |
| After fabrication                    |  |  |
| Weave Type:                          |  |  |
| Any acceptable                       |  |  |
| Wire Crimp Type:                     |  |  |
| Lock                                 |  |  |
| Edge Location:                       |  |  |
| Outside periphery                    |  |  |
| Material:                            |  |  |
| Aluminum alloy                       |  |  |
| Material:                            |  |  |
| Aluminum alloy                       |  |  |
| Surface Treatment:                   |  |  |
| Anodize                              |  |  |
| Shape:                               |  |  |
| Rectangular                          |  |  |
| Surface Treatment:                   |  |  |
| Anodized                             |  |  |
| Shelf Life:                          |  |  |
| N/a                                  |  |  |
| Unit Of Measure:                     |  |  |
|                                      |  |  |
| Demilitarization:                    |  |  |
| No                                   |  |  |
| Filg:                                |  |  |
| A08800                               |  |  |
|                                      |  |  |
