Overall Height:

6.310 inches

Material Thickness:

1.000 inches

Sealing Method:

Compression

Body Outside Diameter:

1.750 inches

Body Height:

3.370 inches

Mounting Method:

Lip

Opening Inside Diameter:

0.875 inches

Material:

Fiber body

Style Designator:

Thru-hole, expandable

Fsc Application Data:

Directional trim actuator aircraft

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A02000
