Attachment To Item Supported Method:

Holds item by means of a locator stud and shoulder on one end

Supporting Object/surface Attachment Method:

Clevis shaped end with a 1/8 in. Dia.

Material:

Steel, corrosion resisting

Material:

Stainless steel

Fsc Application Data:

Fuel control, main, turbine engine, acft

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T08100
