Cross Sectional Shape:

Flat

Width:

Between 0.440 inches and 0.480 inches

Mounting Hole Diameter:

0.2812 inches

Distance Between Mounting Hole Centers:

1.128 inches

Center Radius:

Between 2.380 inches and 2.410 inches

Material:

Steel, aisi c1010 or steel, sae 1010

Material:

Steel comp 1010 or steel comp 1010

Material Specification:

Aisi c1010 assn standard 1st material response and sae 1010 assn standard 2nd material response

Style Designator:

Radius

Fsc Application Data:

Transmission, mechanical, vehicular

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T319-c
