Width:

3.500 inches

End Application:

Used on m11836262

Extended Length:

25.500 inches

Mounting Method:

Threaded hole

Side For Which Designed:

Left hand

Closed Length:

Between 19.600 inches and 19.630 inches

Material:

Aluminum alloy 2014 actuator arm

Material Specification:

Qq-a-200/2 federal specification single material response actuator arm

Surface Treatment:

Anodize and passivate

Fsc Application Data:

Fire control maintenance and repair shop specializedequipment

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A03100
