Overall Diameter:

Between 0.532 inches and 0.552 inches

End Application:

W/s: engine, aircraft, j85-ge-21 (f-5e/f)

Design Type:

Threaded

Round Cap Outside Surface Condition:

Knurled

Special Features:

Buna n high nitrile sealing seat

Material:

Aluminum alloy 3003

Material Specification:

Qq-a-225/2, alloy 3003 federal specification single material response

Thread Size And Series/type Designator:

0.500-20 unf

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A539k0
