Center To Center Distance Between Bolt Holes Along Width:

7.000 inches

Center To Center Distance Between Bolt Holes Along Length:

9.750 inches

Wheel Quantity:

1

Safe Operating Load Rating:

250.0 pounds

Wheel Type:

Semipneumatic tire

Wheel Diameter:

13.000 inches

Effective Height:

16.500 inches

Features Provided:

Brake lock and eye bolt and hexagon nut and shock absorber and swivel lock

Plate Style:

Square

Caster Plate Length:

8.250 inches

Caster Plate Width:

11.000 inches

Caster Plate Mounting Hole Diameter:

0.656 inches

Special Features:

Rear lh assembly

Style Designator:

Swivel offset

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A25600
