Hole Diameter:

0.219 inches

Design Type:

Loop engaging

Operation Method:

Lever on outside

Hole Quantity:

3

Material:

Steel comp 416 pin

Material Specification:

Qq-s-766 federal specification single material response body

Surface Treatment:

Passivate

Style Designator:

Lever with spring

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A03100
