Material Hardness Rating:

49.5 rockwell c

Design Type:

Solid

Spherical Seat Top Radius:

Between 0.5950 inches and 0.6100 inches

Material:

Aluminum alloy, ams4117

Material:

Aluminum alloy, ams4117

Surface Treatment:

Anodize

Surface Treatment Specification:

Hs334type 1 fscm 73030 mfr ref single treatment response

Surface Treatment:

Anodized hs334type 1 fscm 73030

Fsc Application Data:

Aircraft environmental system

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T319-e
