Cross Sectional Shape:

Flat

Width:

3.320 inches

Edge Shape:

Rectangle, four holes

Length:

4.020 inches

Body Thickness:

0.090 inches

Securing Device Type:

Threaded fastener

Mounting Opening Shape Style:

Threaded hole

Features Provided:

Observation facility

Material:

Aluminum alloy 6061

Material Specification:

Qq-a-250/11 federal specification single material response

Surface Treatment:

Paint

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A531c0
