Cross Sectional Shape:

Flat

Hole Diameter:

Between 0.218 inches and 0.225 inches

Width:

1.188 inches

Edge Shape:

Band type

Length:

13.969 inches

Body Thickness:

0.034 inches

Securing Device Type:

Threaded fastener

Mounting Opening Shape Style:

Unthreaded hole

Special Features:

None mtg hole each end, located 90.0 degrees to cover surface in a preformed mtg flange

Material:

Steel

Surface Treatment:

Paint

Fsc Application Data:

Electrical contact brush access, starter, engine, electrical, nonaircraft

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A531c0
