Hole Diameter:

Between 1.501 inches and 1.503 inches

Overall Diameter:

3.750 inches

Fork Span Width:

1.625 inches

Rod Connection Bore Diameter:

Between 1.375 inches and 1.380 inches

Rod Connection Bore Depth:

Between 3.760 inches and 3.765 inches

Distance From Pivot Pinhole Center To Rod Connection End:

5.953 inches

Fork Arm Thickness:

1.062 inches

Fork Depth:

2.000 inches

Material:

Steel uns j03001

Material Specification:

Qq-s-681, 65-35 federal specification single material response

Surface Treatment:

Primer and enamel

Surface Treatment Specification:

Tt-p-636 federal specification single treatment response and tt-e-529, olive drab federal specification single treatment response

Style Designator:

Clevis

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A264a0
