Cross Sectional Shape:

Circular recess

Inside Diameter:

12.188 inches

Flange Thickness:

0.060 inches

Outside Diameter:

13.375 inches

Edge Shape:

Round, no holes

First Recess Inside Height:

5.940 inches

Inside Corner Radius:

0.563 inches

Body Thickness:

0.060 inches

Securing Device Type:

Special

End Application:

Engine model r3350

Features Provided:

Special marking

Material:

Steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A531c0
