Overall Length:

1.500 inches

Overall Height:

2.312 inches

Overall Width:

0.187 inches

Material Thickness:

0.125 inches

Mounting Hole Diameter:

0.156 inches

Mounting Hole Type:

Plain

Hole Quantity:

2

Distance Between Hole Centers:

1.187 inches

Special Features:

The bracket has two holes on each side; the first hole is located 0.156 inches from the side to center of hole and 1.031 inches from top of piece to center of first hole; the second hole is located 0.500 from center of hole first hole to center of hole two and the second hole is located 0.281 inches from the top of piece to center of second hole and 0.156 inches from side and all four holes have diameter of 0.125 inches

Material:

Aluminum alloy 3003

Material Specification:

Qq-a-250/2 federal specification single material response

Style Designator:

Quadruple angle

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:
