| Fabrication Method (non-core):                 |
|--|
| Formed   |
| First Leg Length:                              |
| 0.710 inches                                   |
| First Leg Thickness:                           |
| Between 0.045 inches and 0.055 inches          |
| Second Leg Thickness:                          |
| Between 0.045 inches and 0.055 inches          |
| Center Section Height:                         |
| 0.514 inches                                   |
| First Leg Angle:                               |
| 90.0 degrees                                   |
| Second Leg Angle:                              |
| 111.13 degrees                                 |
| Material:                                      |
| Titanium alloy                                 |
| Material Specification:                        |
| Ams4911 assn standard single material response |
| Shelf Life:                                    |
| N/a  |
| Unit Of Measure:                               |
|  |
| Demilitarization:                              |
| No   |
