Cross Sectional Shape:

Flat w/open center

Outside Diameter:

7.142 inches

Body Thickness:

0.500 inches

Securing Device Type:

Special

Material:

Aluminum alloy 6061

Material Specification:

Qq-a-250/11 t6 federal specification single material response

Surface Treatment:

Nickel

Surface Treatment Specification:

H+4-99, type iv, gr b, cl 3, caged 82577 mfr ref single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A531c0
