Cross Sectional Shape:

Flat

Width:

0.965 inches

Mounting Hole Diameter:

Between 0.316 inches and 0.320 inches

Mounting Hole Quantity:

2

Body Width:

0.375 inches

Distance Between Mounting Hole Centers:

Between 1.245 inches and 1.253 inches

Angle From Horizontal Centerline To Ear In Deg:

75.0

Ear Width:

0.219 inches

Special Features:

Stamp o

Material:

Steel, qq-s-633, comp fs1010-canceled

Material:

Steel comp 1010

Material Specification:

Qq-s-633, comp fs1010-canceled federal specification single material response

Surface Treatment:

Oxide

Surface Treatment:

Oxide, black

Fsc Application Data:

Connecting rod assembly, gasoline engine, nonaircraft, nonguided missile prime mover

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T319-c
