Cross Sectional Shape:

Flat

Width:

Between 0.430 inches and 0.450 inches

End Radius:

0.225 inches

Mounting Hole Diameter:

0.283 inches

Plate Thickness:

0.036 inches

Distance Between Mounting Hole Centers:

0.750 inches

Center Radius:

Between 0.380 inches and 0.400 inches

Prebent Locking Feature Location:

End

Special Features:

Forked shape ends

Material:

Steel, corrosion resisting

Material:

Stainless steel

Style Designator:

Double concave

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T319-c
